

FACTORY AUTHORIZED, CASH BACK SAVINGS

Coats 5040

\$300 cash back

The Coats® Model 5040 handles wheels up to 21". A high-torque X-shaped tabletop provides stable, smooth operation. A powerful bead loosener features three support blocks and a sculpted blade to loosen even the most stubborn tires.

Coats X-Series

up to **\$400** cash back

The X-Series is an upgraded Rim Clamp® chassis, refitted with upgrades to increase your productivity, convenience, and uptime. All of these valuable upgrades are now standard across the entire X-Series line. So, today you get much more for your money. Choose from 50X or 70X (with Robo Arm).

\$300 cash back

Coats APX90

The APX90 can handle nearly any application, with the ability to service wheels from 9" to 30" externally and without the need for additional adapters. At the same time it provides an ergonomic user experience with intuitive and easy to operate features, so that you can focus on changing tires without complicated training issues.

Coats 1250-3D

\$200 cash back

Coats 775

Start offering balancing service to your customers! The Coats 775 is designed for low volume balancing of OE fitments but is packed with features you will find on more elaborate machines, like an integrated LED matrix display, and hidden Tape-A-Weight capability. Plus, you get years of rugged durability, dependability, and performance...all for a value price.

The Coats 1250-3D is the best 3D LED balancer in the business and a great front line tool. With a single touch, all three wheel parameters are loaded. Just drop the hood and go. Plus, it has Stop and Lock, which brings the wheel to the 1st weight position and holds it until the weight is installed then auto indexes the wheel to the 2nd weight position and holds again... all with a push of a button.

\$225 cash back

\$400 cash back

Coats XR1800

The Coats XR1800 has a complete suite of diagnostic software that identifies and solves even the toughest vibration problems, including those related to excessive radial runout and residual static imbalance. And the cycle time is so quick, it's fast enough to use diagnostics on every balance for ultimate customer satisfaction.
