

Coats® Upgrade Kits for Rim Clamp® Tire Changer

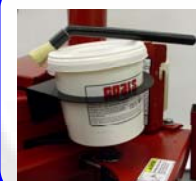

UPGRADED Robo Arm... Redesigned, ergonomic & intuitive operator control handle... PLUS longer reach; now 28"!
(NOT for 5030 or 5040)
Robo-Arm Kit 85009943

On Board Storage... Now available separately. Keep tools, valve stems, TPMS, etc. conveniently at the machine.
Kit 8113621

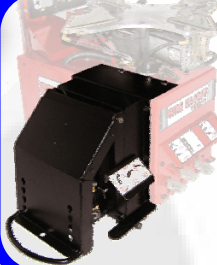

NEW Duckhead® Roller... prevents low profile tires from slipping back up over the mount head during installation.
(fits all 50/60/70 series, not for use with the Manual Bead Roller)

Paste Lube Bracket and Applicator Tool...
(lube not included)
Brush only 85000850
Brush & Bracket 85009048
Paste Lube 8183710

Manual Bead Roller... allows you to hold the bead down during installation or to gain access for lubrication.
(fits all 50/60/70 series, not for use with the Duckhead® Roller)
Kit 8184052 (Roller & Bracket)

Wheel Lift... Improved safety & productivity by reducing down time from back injuries. Reduce wheel damage by giving the operator more control of heavy wheel assemblies.
(For 5050-APX80)
Wheel Lift Kit 85000440

NEW Grip-Max® Clamps... provide integrated wheel protection and TWICE the slip resistance! New jaw profile makes clamping stiff sidewall, low-profile and curb-protector style tires much quicker and easier! Available in 2 sizes.
(for X models only)
Kit 85000758 6"-22" external clamping (4 clamps)
Kit 85606361 16"-28" external clamping (4 clamps)

Oil Injector System... HUGE clear reservoir holds ~1 year's worth of oil... a drop of which is injected into the system. Drastically reduces downtime and repair costs due to "no oil" condition.
Upgrade kit 85000839 (Service centre installation only)
