Alloy Wheels: Passenger Cars & Light Trucks

ALC®
Aluma-Guard™ Coated

Domestic
(GM, Ford & Chrysler)
12 sizes: .25 to 3 oz.

ALCMC
Aluma-Guard™ Coated

Domestic
(GM, Ford & Chrysler)
12 sizes: .25 to 3 oz.

ALCLH
Aluma-Guard™ Coated

Newer Chrysler
12 sizes: .25 to 3 oz.

TTC
Aluma-Guard™ Coated

New Domestic Lt. Truck
(GM, Ford, & Chrysler)
12 sizes: .25 to 3 oz.

ALCIW
Aluma-Guard™ Coated

European, Subaru
11 sizes: 10g to 60g

ALCTW
Aluma-Guard™ Coated

European, Subaru & Mitsubishi
12 sizes: .25 to 3 oz.

ALCFN
Aluma-Guard™ Coated

Newer Japanese
12 sizes: 5g to 60g

ALCEN
Aluma-Guard™ Coated

Mercedes & older Japanese
11 sizes: (in 5g incr.)
10g to 60g

MBC
Aluma-Guard™ Coated

Mercedes, 2 pc.
12 sizes: 5g to 60g

BMC
Aluma-Guard™ Coated

BMW & newer Jaguar,
2 pc. 11 sizes: 5g to 55g

AVW
Aluma-Guard™ Coated

Audi & VW 2 pc.
12 sizes: 5g to 60g

Steel Wheels: Passenger Cars & Light Trucks

TC-THINLINE®
Coated

All import and domestic
passenger cars, 1/2 ton trucks
and all mini pickups & vans
with standard .125" flange.
20 sizes: .25 to 6 oz.

T-THINLINE®
Uncoated

All import and domestic
passenger cars, 1/2 ton trucks,
mini pickups and vans with
standard .125" flange.
NASCAR sanctioned.
20 sizes: .25 to 6 oz.

GRAMLINE®
Uncoated

All import and domestic
passenger cars, 1/2 ton trucks,
mini pickups and vans with
standard .125" flange.
12 sizes: 5g to 60g

NOTE: See application chart and use Rim Gauge to make actual weight selections for a particular wheel.

A LEGACY OF LEADERSHIP

For more than 50 years, BADA® has provided one of the most comprehensive selections of wheel weights and wheel balancing products in the world.

Our product line includes dry polymer-coated and non-coated clip-on weight styles, non-coated and chrome Tape-A-Weights™, and accessories and tools to handle virtually any wheel balancing application. BADA, the wheel weight supplier to NASCAR®, provides more solutions than any other company in the wheel balancing industry.

BADA is certified to QS-9000 1998. We have our own in-house die-cast manufacturing to provide the rapid product development and production response needed for today's ever-changing marketplace, while maintaining the best possible quality standards. And in conjunction with our sister brand, Coats® wheel balancers, we continually work on ideas for new balancing solutions.

BADA's innovations are many, including our exclusive BADA-LOC™ design that provides a more secure attachment of the weight to the wheel for balancing accuracy and safety. And since more than 65% of today's new cars are equipped with alloy wheels, BADA's tough dry polymer Aluma-Guard™ coating is more important than ever. Aluma-Guard™ completely seals the weight and clip to prevent chemical reactions between the lead and alloy that result in unsightly discoloration and damage to the rim surface.

With growing concerns over the use of lead, our line of polymer-coated wheel weights offer an attractive solution for balancing the wheels of both contemporary and older model cars and trucks. They not only protect alloy wheels from staining and corrosion, but also enhance appearance with their sleek matte metallic finish.

BADA also works hard to simplify the wheel balancing process for technicians. Our color-coded weight storage and selection system makes inventorying and choosing the right weights a fast, easy process. In fact, color coding extends to this catalog – the same color system is used here to present our products, making weight selection even easier.

There's never been a more effective or easier wheel weight management system than BADA.

Our BADA-LOC™ design provides the most secure attachment of weight to wheel.

Corrosion caused by uncoated lead weights

BADA's polymer coating eliminates stains

QUALITY BADA TOOLS & ACCESSORIES

Truck Plier/Hammer
This wheel weight tool is especially designed for use on truck weights. It includes a plier-type

hook for removing weights and hammer head for installation. The soft plastic handle makes use easy and comfortable.
PN 8144064

Truck Weight Tool
Custom designed by the technicians at BADA, the beauty of this wheel weight tool is in its simplicity.

Apply wheel weights with one blow directly on the clip. This wheel weight "wizard" prevents damage to costly rims and weights.
PN 5200210

Premium Plier/Hammer
Ideal for installing and removing coated weights.
PN 8113175

Replacement tip: PN 8113176

Standard Plier/Hammer
Combination tool with interchangeable tips for coated and uncoated weights.
PN 8111515

Soft replacement tip: PN 8111516
Hard replacement tip: PN 8111757

Tape-A-Weight Cutter Tool
Tempered steel blade cuts all BADA Tape-A-Weights and features automatically opening jaws, close-lock and comfortable handle grips.
PN 5528908001

Dead Blow Hammer

For truck weights, this hammer delivers the "punch" needed for stubborn jobs. Soft faced head is loaded with lead shot that shifts when hammer swings. Reduces rebound and increases impact. The safest non-marring, non-sparking hammer made.
PN 5235331

Two Piece Weight Tool
Makes it easy to install new two-piece weights like

the MBC and BMC weights for BMWs and Mercedes.
PN 5236000

Tape-A-Weight Scraper
Great for removing old Tape-A-Weights from wheels. Beveled edge lifts old weight and pops it off, and also scrapes off old adhesive.
PN 8113390

Alloy & Steel Wheels: Trucks & RVs

BTS
Uncoated

All 3/4 and 1 ton trucks with 13", 15" and 16" two-piece rims; 16.5" x 6.00", 6.75", 8.25" and 9.75" tubeless wheels.
10 sizes: .50 to 6 oz.

BTLM
Uncoated

1 1/2 to 2 ton medium-duty trucks and buses with tube type wheels; Firestone wheels R, DT, and LB; Goodyear wheels L, LW and M.
9 sizes: 2 to 16 oz.

BTRC
Uncoated

Tubeless curved flange truck wheels like Firestone Radial Commander, Budd, Firestone, Goodyear strip-steel wheels.
8 sizes: 2 to 14 oz.

BTLT
Uncoated

Used on "section" type, straight flange, tubeless wheels' Goodyear Super Single; Budd 7.50" and 8.25" wheels with Firestone or Goodyear discs.
9 sizes: 2 to 16 oz.

BTCAL
Aluma-Guard™ Coated

Used on both open side (inside flange) and disc side (lug nut-side flange) for ALCOA and firestone aluminum truck wheels.
4 sizes: 3 to 8 oz.

BTST
Uncoated

Budd DUO 16" x 5.50" split-ring wheels, RVs, 3/4 and 1 ton trucks with thick flange wheels that prohibit use of BTS weights.
6 sizes: 2 to 8 oz.

ACCU-GUARD SYSTEM

Along with the rest of our organizational system, the BADA rim gauge and application charts take the guesswork out of making the right choice quickly every time. Application charts list vehicle and weight styles for most OEM cars and trucks. If an aftermarket wheel has been installed, simply fit the color coded rim gauge to the flange to find the correct style weight to use.

PN 200008 Truck Rim Gauge
PN 201047 Passenger Car & Light Truck Application Chart

TAPE-A-WEIGHTS™

Tape-A-Weights™ address the need of balancing the ever-growing number of aftermarket "softline" wheels which will not accept traditional clip on weights.

Tape-A-Weights' slender profile and out-of-sight mounting capability enhance the looks of any wheel. You see the beauty of the wheel, not the weight.

And easy-to-use standard and low profile Tape-A-Weights are available in break-a-way or cut-a-way strips. Our break-a-way strips eliminate cutting and pre-contouring, while reducing waste. But both types significantly speed up the balancing process.

RV & Light Truck

Larger weights specifically designed for truck and RV applications.

BREAK-A-WAY WEIGHTS

7127, 16 pieces, .5 oz segments, 3/4" x 12", 384 segments

CUT-A-WAY WEIGHTS

3101, 12 pieces, 1 oz. segments, 1" x 12", 216 segments

6001, 16 pieces, 1 oz. segments, 3/4" x 12", 192 segments

Motorcycle

More compact weight sections to fit most motorcycle applications.

CUT-A-WAY WEIGHTS

1201, 15 pieces, .5 oz. segments, 3/8" x 12", 180 segments

2101, 30 pieces, .5 oz. segments, 3/8" x 12", 360 segments

Contoured TAW

Pre-formed contoured back for more secure attachment to wheel. Works with most passenger cars. 12 sizes. 5-60 gm. Also available in chrome.

Passenger Cars

BREAK-A-WAY WEIGHTS

7025, 15 pieces, .25 oz. segs., 1/2" x 12", 360 segments

7125, 30 pieces, .25 oz. segs., 1/2" x 12", 720 segments

7026 Low Profile, 48 pieces, .25 oz segs., 3/4" x 6", 576 segments

7126 Low Profile, 348 pieces, .25 oz. segs., 3/4" x 6", 4176 segments

CUT-A-WAY WEIGHTS

5101, 15 pieces, .5 oz. segs., 1/2" x 12", 180 segments

9101, 30 pieces, .5 oz. segs., 1/2" x 12", 360 segments

9101-65, 174 pieces, .5 oz. segs., 1/2" x 12", 2088 segments

9405 Chrome, 12 pieces, .5 oz. segs., 1/2" x 12", 144 segments

For use on chrome plated wheels

9901 Low Profile, 24 pieces, .5 oz. segments,

3/4" x 12", 288 segments

9901-65 Low Profile, 174 pieces, .5 oz. segments,

3/4" x 12", 2088 segments

9902-500 High Performance Racing, 12 pieces, .5 oz. segments, 3/4" x 12", 144 segments. *Used by NASCAR and suppliers of Firestone Racing CART, Indy Light, IRL*

BADA WHEEL WEIGHT ASSORTMENTS & ORGANIZATIONAL SYSTEMS

With the proliferation of alloy rim styles has come an increase in the complexity of weight selection. So we developed a simple, effective solution... the BADA Weight Organization System (WOS).

BADA alloy wheel weights have been assigned color codes to simplify the ordering process and the management of wheel weight inventories.

An application guide illustrates the proper weight to install on most alloy wheels. And BADA's color coded rim gauge makes it easy to identify the correct rim flange and weight style for easy application. Best of all, this system corresponds to the label color on our wheel weight boxes and the bins used to store your weights.

Plus, BADA's system allows you to customize your inventory based on the vehicles you service. Just match your wheel weight order to the corresponding color, along with the rack system that suits your needs.

With the exclusive WOS system in place, your shop will run more effectively, more efficiently, and more profitably.

Specifications subject to change without notice. Units may not be exactly as pictured.

Part No. 941067 Rev.2 6/02

Metal Floor Rack

All metal floor rack includes dividers for increased flexibility while accommodating a minimum of 64 weight locations. Channel cards make finding proper weight fast and easy. All Vehicle Kit includes Aluma-Guard™ weights including ALCLH, TTC and Thinline to cover most alloy and steel wheels. Includes free color coded app chart, rim gauge, Tape-A-Weight scraper, premium hammer.

All Vehicle Kit: PN 5201275

Rack Only: PN 5201205

Plastic Bin Floor Rack

Ideal for medium to large shops where a variety of vehicles are serviced. All Vehicle Kit includes rack and bins featuring Aluma-Guard™, Thinline and BTS weights. Maintains 500 lbs. of inventory. 36" w x 53" h x 14-1/8" d. Holds 96 bins.

All Vehicle Kit: PN 5201975

Mobile Bins

Mobile storage system with six divided sections on each of four shelves.

19-3/4" w x 37-1/2" h x 7-7/8" d

PN 5202420

Bench Top Rack

Louvered rack can be placed on top of any work bench. 35-3/4" w x 21" h x 8" d. Holds up to 32 plastic bins. Aluma-Guard™ All Vehicle Kit has six styles of coated weights, rim gauge, installation tool, plus color-coded application header card and guides.

All Vehicle Kit: PN 5201125

Rack Only: PN 5298636

Wall Mount Rack

Mounts on the wall, out of the way but provides easy accessibility. 35-3/4" w x 19" h.

Holds up to 32 bins.

Bins not included.

Rack Only: PN 5230136

Individual Bins

Durable polypropylene bins and divider sets are virtually unbreakable and unaffected by water, rust or corrosion. Available in eight colors for WOS System.
